### **DETAILED ACTION**

This action is in response to an amendment filed on April 13, 2006 for the application of Parulkar et al., for an "On-chip testing of embedded memories using Address Space Identifier bus in SPARC architectures" filed June 30, 2003.

Claim 18 has been amended.

Claims 1-19 are allowed.

### **Reasons for allowance**

The following is an examiner's statement of reasons for allowance:

Applicant's arguments see pages 8-18, filed April 13, 2006, with respect to claims 1-19 have been fully considered and are persuasive. The previous 102(b) rejection of claims 1, 4-6, and 12-19 and 103(a) rejection of claims 2, 3, 7-11 has been withdrawn.

In response to applicants arguments regarding claims 1-19, after a complete search of all the relevant prior art the examiner has determined the claims are in condition for allowance. The following limitations when viewed in combination with the remainder of the claim as a whole place this application in condition for allowance.

As per claim 1, the examiner finds the novel and non obvious feature of claim 1, when read as whole to be use of Address Space Identifier (ASI) bus in performing memory testing.

As per independent claims 7, 12, and 16 same reasons as claim 1 apply.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
